

an aerial panorama of a cryptic mechopolis tilted and spun

a lake of bright mercury, solar windmills hung reflected in still, deep quicksilver

the green-tinted roovescape of my hydroponic complex straining the light of distant suns onto the flowerbeds below

following the light, the breeze, the ocean, a whole world is waiting still my heart weeps, I'm sad at leaving and sad at arriving.

Chapter 2: In which Qfwfq assembles a raft and begins a journey upriver

the toe bone works just like a sonar
 two brains make you feel bi - polar
 My nerve strings crawl just like an earthworm
 Your head bone connected to the world bone
 (Chorus)

Chorus:
 Disconnect dem bones
 Disconnect dem bones
 Disconnect dem bones
 Ah! Who? Ah! Who? Ah! Me-chee-chee!
 (Chorus)

the thigh bone connected to the thigh bone
 the eyebrow connected to the cyborg
 the cyborg dismantled for the nice parts
 and all of them are Freeeeeeee!
 (Chorus)

the head bone connected to the switchboard
 the main board connected to the neck bone
 the neck bone connected to the foot bone
 the foot bone connected to the diodes
 (Chorus)

My body is like a bag full of red wires
It's dark in my room,
the glow from my eye is faint
affraid of getting up,
deep down in me I feel
Something soft and evil,
start to move

I hate this meat
still Covering my bones.
A layer of fat -
Sensitive to pain, so spongiou ;
but At the bottom,
my heart beats for you.

I hate u, Pamela,
for giving me this body
Friendships disintegrate,
everything fades away,
things go faster and faster,
Years pass and glide by
nothing resurrects,
no desire to live
and affraid of death.
